

Our local cable bill was recently increased. The reason given by the company was they owned so many they felt it was in line with the other areas they operated. What kind of reason is that? It says we re a monopoly and we can do what we want. You have the power to protect the people whose voice can only be heard through the system you represent. Do not allow the major 4 owners of the media to gobble up even more of the airwaves. Please take the time to do what is right and allow the people to hear more than one opinion. More than one voice should be heard. No one entity should control the entire media for any given area. This is not a democratic way to do things. Keep the 4 major players from getting all the media.
